Our Mission

The Arc of Summit and Portage Counties exists to preserve and enhance the human dignity and legal rights of people with mental retardation and/or developmental disabilities.

20TH Annual Benefit Golf Scramble

Who is The Arc and Whom do We Serve?

The Arc of Summit and Portage Counties is celebrating 60 years of service! We consider it a privilege to serve citizens with mental retardation and other developmental disabilities and their families and plan to continue to provide vital advocacy services and programs for the next 60 years! We are here to advocate for citizens with disabilities and have a responsibility to ensure that their rights are protected and that they are given every opportunity to receive community support and services to lead productive, self-sufficient lives to the best of their capability.

The Arc is the only social service agency that provides pure advocacy services for citizens with developmental disabilities within the counties served. Without an agency to teach citizens with developmental disabilities and their families about the laws and services in place to protect and assist them, many individuals in this at-risk population would not receive the assistance, services and respect that are rightfully theirs. Our advocacy services and educational community outreach programs assist this population and their families in making informed life choices, ultimately enhancing their quality of life.

Our agency remains committed to assisting people with developmental disabilities and serving as many clients and families that express a need. The advocacy services and educational community outreach programs that we provide are far-reaching and assist a segment of the community that is overlooked far too often. By participating in The Arc's 20th Annual Benefit Golf Scramble, you assist our agency in continuing our efforts in providing advocacy services and educational community outreach programs to increase overall awareness, sensitivity and understanding toward people with developmental disabilities.
